NSLF Relocation Program:

by Mike Rogers, SA Man

Building up a base of operations where there is the greatest concentration of talent and resources is absolutely essential to the National Socialist revolution.

In order to establish this base of operations we need to bring in people from other areas and to get them set up here in this area. Hence, the NSLF Relocation Program.

We have had some success with this program thus far and we have a number of people on our list who have expressed interest in the same.

What we try to do is to set these people in jobs and places to live. For the most part, jobs can be had by just about anyone who is willing to work. That isn't a job guarantee, but its the closest thing to it. Some of these jobs aren't the greatest in pay, but they will get the rent paid till something better can be found. Of course there is a greater demand for trained help and the pay scale reflects this.

As for a place to live, Metairie is more suitable for whites than New Orleans but the rent is higher. Still, you can get a real nice efficiency for \$300 a month. Utilities run an additional \$20. per month. Plus you will need a security deposit of at least \$100.

Obviously, there are better and larger apartments available, just as there are cheaper places. This will only give you an idea of what can be had.

Eventually we hope to establish a halfway house and SA barracks for transplants and SA recruits, but this is not financially feasible right now.

The best way to relocate here is to save up around \$500-\$700. That will give you a little bit of a cushion. Then keep us informed as to your expected arrival date. We will work with you on this and help you in any way that we can. That way we can get you down here and involved immediately with our little community. One thing, please do not drop in, without a dime to your name and expect us to find you a place to stay, feed you and clothe

you. We are all working people and we do not have those resources.

If it is agreeable with you, we might be even able to arrange for you to share an apartment with a roommate, thus cutting your rent in half. That makes things a little crowded, and we don't recommend it for long term arrangements, but it will do till you get settled.

The advantages of relocating for you are intangible in nature. A senior in High School recently called us from Ohio. He complained that not only was he the only National Socialist in his town, he was the only one who gave a damn. The rest of the people his age were content with drinking, and partying. He will be arriving after he graduates.

We must emphasize one last and important point. We are looking for a specific type of individual. We don't want boozers, druggies or defeatists. We want activists who will go out and distribute, and distribute and distribute, till the area is saturated. We want people who will put on the uniform and go out into the street and hold our banner proudly and defiantly. Also, if work is alien to you, please do not bother us, unless you are independently wealthy and can afford that lifestyle, because we certainly can not. As Hitler said: "Those who will not work, w'll not eat."

We sincerely hope that you will decide to relocate to this area.

Everyone wishing to relocate should write to NSLF Headquarters, Box 61, Kenner, La. 70063 U.S.A. Hope to see you soon!

STREET ACTION

An Introduction To The SA The Uniformed Arm of NSLF

"The SA must represent the spirit of the WOLF. They are the new barbarians of the coming New Age. They must be lean and mean. Their function is to search out, attack and DESTROY the enemy through political confrontation and controlled aggression. The law requires that we will never throw the first punch, but we shall always throw the last!"

.....Karl Hand, NSLF
Commanding Officer

The Original SA

SA is the abbreviation of the German title "Sturmabteilung" literally translated it means Storm Division. The SA grew out of a band of fanatical soldiers of the first World War who were dedicated to the cause of freedom for the German people. They were called the "Friekorps" meaning Freecorps or Freedom Corps. The SA which grew out of this was the vanguard of the original party taking Germany back from the communists and reactionaries who had infected Germany like a cancer. They were highly motivated street fighters who did not stop short of violence when the situation called for it. As Adolf Hitler said in his May 1st speech of 1923, "We are National Socialist fanatics, not dancers on the tightrope of moderation!"

The SA is as essential to the party as is its sacred symbol, the swastika. The SA man was not only a fighter, he was a symbol of all the good things to come out of the coming National Socialist state. He stood for self-sacrifice, loyalty, discipline and devotion to his white race. He was fierce in the face of the enemy but his comradery both on and off duty conveyed the true brotherhood of National Socialism. He was well liked by the people around him and would not refuse aid when needed. The SA

epitomized self-sacrifice. With millions of unemployed workers in the 1920's many were working poor jobs, or were not working at all. Many were receiving social assistance which was a pittance compared to our modern welfare state. Yet, they raised money to pay for their uniforms, pay their dues, and contribute whatever they could to the movement. They wanted victory and were willing to pay the price. They did not see their hope for the future in materialism, but in the ideals and principles of National Socialism, in a Jew and communist free Europe. They pledged their lives to the cause and meant it. Many gave up their lives so that others could have freedom from democratic oppression, even if it was for just a few years. It is better to die fighting for the freedom of posterity than to die in bondage and slavery, drowning in one's own apathy. The memory of men like Horst Wessel will live on long after their critics have turned into dust.

The SA Today

Just as in the original party, the SA is an important part of the National Socialist Liberation Front. Our job is to take back America, in fact the Western World, from the communists, Jews, Niggers, Queers and Racemixers. Our task is by no means an easy one. Neither was the task of the original SA, but they performed it with vigor. The SA epitomizes the best elements of our race and the National Socialist movement. This is evident not just by words but more importantly, by ACTION. The SA stands for Street Action. Only those willing to confront our enemies on the street will be allowed in the SA ranks. The SA is building its power base in New Orleans, the Munich of America as one supporter called it.

In NSLF and the SA, we believe in leading by example. We do not, nor would we ever ask any SA Man to do something that we ourselves will not do. The call is being sounded to take this battle to the streets. It has been issued by men who are veterans of many street confrontations.

Karl Hand, our Commanding Officer has never shrunk from the enemy, nor shall we. Let us, under the holy banner of the swastika, beat the enemy into the ground. It is not just our duty, it is our right!

Requirements of the SA Man

To become a member of NSLF/s SA(Street Action) Division, a recruit must meet with the following requirements:

NSLF ACTION

Nebraska Unit:

We now have a new unit in the state of Nebraska. Unit NO. 125 is led by C.W. Briscoe.

C.W. Briscoe is a military man with a knack for articulating our viewpoint in a gritty and down to earth fashion. He has been affiliated with other organizations but has decided that NSLF is the movement on the move.

C.W. is going to be doing some great things in that state and we encourage everyone to contact him and welcome him aboard. His address is: Box 357, Madison, Nebraska 68748

Informant Exposed:

An informant for the Jefferson Parish Sheriff's department has been exposed. His name is Michael LaBorde and his address is: 2401 Houma Ave., B6-103, Metairie, La. 70001.

LaBorde is 42 years old and filled out an application for membership where he swore that he was not an informer for any police agency. The application states that any fraud on his part represents an act of perjury. This demonstrates the type of people who represent the system. No oath means anything to them. Nothing is sacred to them. The only thing that matters is their blood money.

LaBorde hangs around one Doug Niles. Niles claims to have been a group leader under Rockwell. Any information that you may have on this man should be sent to NSLF Headquarters immediately.

Harrassment Increases:

The "free" system that lords over you has begun to react to NSLF's intensive activity in New Orleans. First, a six year old assault charge against C.O. Hand by ADL agent Jerry Dutton was resurrected. Rather than go to an attorney who wanted

\$500, C.O. Hand filed his own motion to dismiss on the grounds that the statute of limitations ran out. The motion was granted.

Less than a week after the motion was granted, C.O. Hand's employer got a phone call threatening a boycott if they did not fire him. The information as to Mr. Hand's employer could have only come from the Jefferson Parish Sheriff's Department. When he was rearrested on the Jerry Dutton charge, C.O. Hand was asked by one of the detectives where he worked. Not thinking anything about it he gave them that info. When that charge didn't stick, they tried economic sabotage. The culprit behind all of this is one Danny Sambrou who has harassed racists in the past. He worked under Al Cromvitch who was the Sheriff here until he was run out because of illegal wire-tapping.

The caller on the phone stated that they intended to run Karl Hand out of New Orleans. Now why is C.O. Hand being singled out for this kind of treatment? The answer is simple. He has been the spark for the recent surge of activity in this area.

All through this, C.O. Hand has kept a stiff upper lip. He has never flinched from his duty. What's more, he knows that it will get worse, and that he will be their principle target.

The question is, when things do get worse are you ready to do battle? Will you let them run Karl Hand out of town? Don't think that for a moment that they will but there will be times ahead when he will need your complete and total support.

The battle is on! That is not something that we should try to avoid, but to hasten. The fight must be fought to be won. But when it does come let us remember the slogan "one for all and all for one". So, let the enemy keep doing their worst and we will keep doing our best.
